Hello. Thank you for your offer. We will accept your offer of \$27,500, this will not include shipping however. Please let me know how to proceed. Thank you, Ralph

Good afternoon,

We are truly interested in the vehicle you have listed. Any purchase by the city would require council approval. I would also need a quote from you so that I may generate a purchase order request. This would be required to get the wheels in motion to expedite this request. Again being a municipality we would be tax exempt for purchase. My offer would be \$27,500.00 out the door shipped to our location. I would need the quote to reflect that amount if possible. Please let us know, thank you! Chief V

Mayor Blackwell and Members of Council,

Trust me, the last thing I want to put before you in this turbulent year is to purchase a vehicle, but the breakdowns have become intolerable. Now I have to balance safety and fiscal responsibility, not to mention loss of Ambulance Billing revenue when the truck cannot respond.

The city will be taking delivery of a new ambulance after March 1, 2021. The city operates two (2) front line Advanced Life Support ambulances with one (1) Advanced Life Support ambulance in reserve status. We have one in reserve to cover the frontline units when they are getting serviced and when we call in additional personnel for a city emergency. The intent is to always have two (2) ambulances ready to serve the citizens.

Due to the liability from ongoing breakdowns and repairs, I am recommending that the 2007 Ford Medix Ambulance vin# 1FDXE45P87DB05705 be taken from service as soon as possible and liquidated on "Gov Deals" for a reserve price of \$5,000.00 or greater.

This vehicle currently has a transmission that is in need of replacement (no overdrive gear and shutters when shifting in third gear), the driver's side door jamb at the hinges that has been repaired twice, has cracked again, the door may end up falling off! It has failed when responding to a call, on a call and simply driving the city on more than one occasion. This vehicle is not under warranty. This truck has had issue after issue in the last four (4) months and honestly has completely over extended its service life.

The city at this time cannot afford a purchase of an additional new ambulance, a cost of \$200-250K. My recommendation is to find a good used ambulance and move from a standard duty to medium duty vehicle similar to our 2016 and ordered 2021 ambulances. It would be more fiscally responsible to the residents of the city than expending any more money on our 2007 ambulance.

As an emergency measure to continue to provide safe transport of our personnel and residents; I recommend purchase of a 2008 Freightliner/Braun Ambulance from Pfund Superior Sales (our current ambulance vendor) in the amount of \$18,500.00. We have had a long relationship with Pfund and I trust purchasing a vehicle from them vs. an unfamiliar entity.

This ambulance's condition (the 2008 Freightliner) has been inspected by the Maple Heights Service Department, Hans Freightliner, North Coast Radio, Dunham Auto Body and has been deemed to be in very good condition. We have had the truck here for the last three weeks we have driven it and feel it is a very good truck. We also obtained the vehicles history from Freightliner, the Brimfield Fire Department (where it served since new), and the previous fire departments service vendor. Brimfield just purchased two new ambulances from our vendor and the old units were taken in trade. Brimfield is on a vehicle replacement schedule. It has no implied warranty and we have taken every precaution to inspect it thoroughly prior to purchase.

Initially the 2008 ambulance would be front line and serve as RS #2. Upon receipt of our 2021 ambulance this unit would function as our reserve unit and should provide good service time in that capacity to the city.

Sincerely,
