

# Getting Back to Work Safely

Employer solutions powered by Cleveland Clinic's world-class care

The COVID-19 pandemic has entered a new phase. We've flattened the curve. People are returning to work. Now our employees want to know what comes next. Will they be safe? Has the organization changed? What can they expect from the future?

As leaders, we need to deliver clear, accurate and concise answers to these questions. We owe it to our employees and those they serve. We are all on the same team. Not only within our organizations, but in our broader industries and communities.

In transitioning to the world's "new normal," there are many new health and safety issues to consider. To help employers, Cleveland Clinic recently launched a COVID-19 platform. The variety of resources offer expert insight and solutions for safely resuming operations.

My team and I stand ready to assist you and your employees.

Tomislav Mihaljevic, MD

Chief Executive Officer & President, Cleveland Clinic

# Creating a COVID-19 Safe Workplace

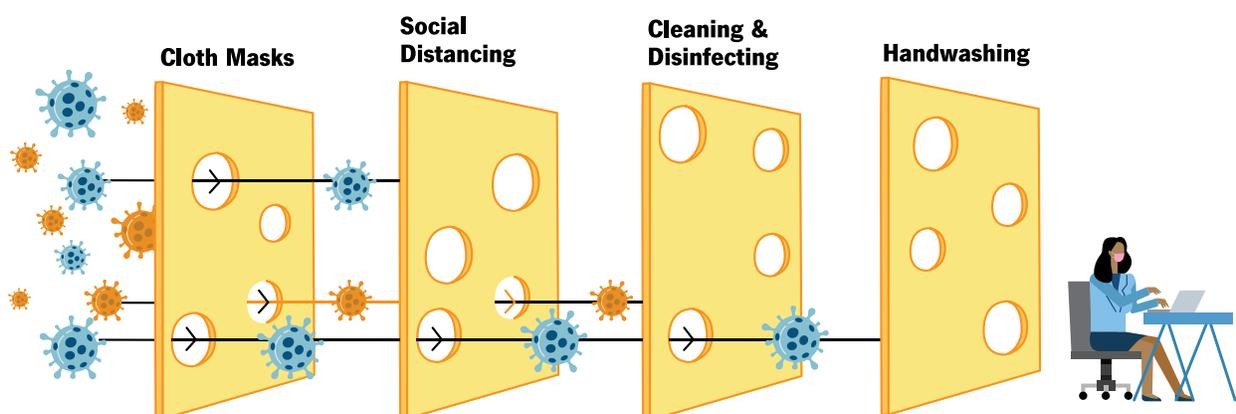

Helping your employees return to work safely and confidently during the coronavirus (COVID-19) pandemic is no easy task. Cleveland Clinic has gathered resources from our health experts and designed programs to help you develop and implement a plan.

## Now is the time

These resources will help you through the key steps of reopening your business in the wake of the COVID-19 pandemic, including:

- › Making sure your facility is fully clean, disinfected and equipped with a blueprint for maintaining safe conditions.
- › Setting up a support system for employees as they return to work and adjust to new realities and emotional challenges presented by the COVID-19 pandemic.
- › Creating a plan for a safe work environment that protects employees and customers alike from risks connected to COVID-19, including exposure and transmission.

The COVID-19 pandemic requires multiple layers of protection to keep the workplace safe. These layers serve as safeguards for your organization and your people. When used together consistently, the holes (or weaknesses) in any single layer of protection should be offset by the strengths of another layer of intervention.

## Customizable Solutions to Meet Your Needs

### Online Resources On Demand

Free tools and guidebooks curated by Cleveland Clinic's experts to assist with your COVID-19 response efforts. Download at [ClevelandClinic.org/Covid19AtWork](https://ClevelandClinic.org/Covid19AtWork).

### COVID-19 Employer Consult

We'll schedule a one-hour phone consult with a Cleveland Clinic Occupational Health physician to address your questions and challenges.

### COVID-19 On-Site Assessment

A Cleveland Clinic Occupational Health physician will conduct a half-day, on-site assessment focused on COVID-19 and general occupational health support.

### COVID-19 Employee Hotline

Cleveland Clinic will staff a 24/7 hotline to provide quick, accessible guidance to address employees' COVID-19 questions and concerns.

### Medical Director

Partnership with a dedicated Cleveland Clinic physician to assist with a full spectrum of employee health and safety procedures.

### On-Site Clinic

Cleveland Clinic can place on-site clinics at your location, allowing for easy access to healthcare for your employees.

### Ask a Nurse

A special program for non-profit and faith-based organizations. The Cleveland Clinic Nursing Institute will provide support on a variety of COVID-19 related topics.

We've compiled Cleveland Clinic resources that will help you through the key steps of reopening your business in the wake of the COVID-19 pandemic, including:

Cleaning and disinfection.

Setting up employee support systems.

Ensuring a safe work environment.

Keeping employees safe, healthy and resilient.

Recognizing and managing symptoms.

## Ready to Get Started?

## About Cleveland Clinic

Headquartered in Cleveland with facilities around the world, Cleveland Clinic is a nonprofit, multi-specialty academic medical center that integrates clinical care with research and education. Cleveland Clinic was founded in 1921 by four renowned physicians with a vision of providing outstanding patient care based upon the principles of cooperation, compassion and innovation. Today, Cleveland Clinic is one of the largest and most respected healthcare systems in the world. U.S. News & World Report consistently names Cleveland Clinic as one of the nation's best hospitals in its annual "America's Best Hospitals" survey. Each year, thousands of patients travel to Cleveland Clinic hospitals from every state in the nation and more than 180 countries for their care.

Cleveland Clinic has been partnering directly with employers for more than 50 years with programs focused on executive health, wellness and expert second opinions. In addition, corporate philanthropy plays an important role in the non-profit healthcare system, providing vital resources for research and world-class patient care. 100% of corporate gifts goes to lifesaving and life-changing ideas, innovations and outcomes.
