

Speed Tables (Humps) Update- May 31, 2024 FROM MHPD CHIEF TODD HANSEN

This update is to announce that installation is mostly complete. There are pictures attached to show the final product. There are signs preceding the humps in the road. The signs look like this: Speed Hump is the name the Federal Manual of Traffic Control Devices (FMOTCD) uses for these devices. The City of Maple Heights is bound to use the FMOTCD language on the roadways. The signs are easy to read and readily announce the upcoming device in the roadway.

Five of the six planned tables are installed already and functioning. The last table is set to be installed on Waterbury Avenue near Jackson the first week of June. The other locations:

These locations are up and running currently. Here are some pics of these locations.

The Police Department will be monitoring the speed in these areas to assess the effectiveness of the humps for this pilot program. THANK YOU.
