

CITY OF MAPLE HEIGHTS COORDINATES WITH GREATER CLEVELAND REGIONAL TRANSIT AUTHORITY (GCRTA) TO CONSTRUCT NEW BUS STOP IMPROVEMENTS AT SOUTHGATE USA

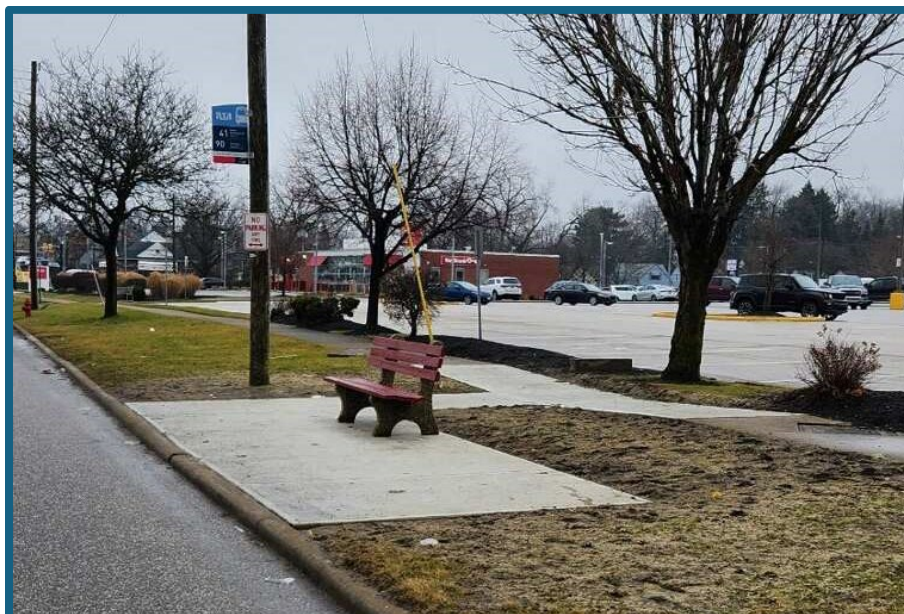

Mayor Annette Blackwell and her administrative Team have been working with the Greater Cleveland Regional Transit Authority (GCRTA) to coordinate upgrades to the bus stops at two (2) locations in the Southgate USA vicinity. Performing this work helps to immediately improve the public transportation experience for our residents as we continue planning future Southgate USA areawide improvements.

The City of Maple Heights recently completed the construction of concrete sidewalk and a bus pad at the intersection of Southgate Park Boulevard and Northfield Road under the 2024 Pavement Repair Program. GCRTA has committed to the installation of a bus shelter at this location in the near future.

Intersection of Southgate Park Boulevard and Northfield Road

The City also completed the construction of a concrete pad, located curbside, at 5321 Warrensville Center Road to accommodate a new bus stop bench.
